First Circular & Call for Papers

The international conference

Polymeric Materials 2010

represents the 14th event within the series of „Polymeric Materials“ conferences in Halle/ Merseburg. Organized biennially this conference has a long-standing tradition in the field of polymer science and engineering in Germany. Now, with the „P.2010“ the profile of this conference is extended, thus in plenary, keynote and short lectures as well as poster presentations scientific results in the fields of

- **Polymer Chemistry**
- **Polymer Physics and**
- **Polymer Engineering**

will be presented and discussed.

In 2010 a special symposium is planned on the topic

● **Polymers in Energy Engineering**

under specific consideration of renewable energies.

All interested colleagues are invited to present and to discuss current research results in the field of polymer science and engineering. Please submit your lecture or poster offer together with a 300 word abstract until February 28, 2010 to the conference office.

The conference is accompanied by an exhibition of scientific instruments for polymer characterization and testing, processing equipment as well as scientific books.
